

WARNING: READ THE ASSEMBLY INSTRUCTIONS CAREFULLY BEFORE ASSEMBLING THE KING PARK SETTING.

Make sure to wear protective gloves and foot protection when installing and assembling this product. Unpack the unit and make sure all the components are included before proceeding. This activity requires two or more people as lifting is involved. Please ensure bolts are only finger tightened during the assembling process for flexibility in lining up components. Securely tighten the bolts before anchoring the product to the ground.

Thank you for purchasing our high quality products. It is our commitment to provide cost effective solutions for outdoor applications. The King Park Setting has been manufactured with certified materials to achieve high reliability and minimum maintenance.

1 

Lay 3 table planks (PK2) upside down on a flat surface as shown, making sure they are level at both ends.

2 

Bolt the two main frames (PK1) to the assembled planks (PK2), frame tags facing inward and upside bolts as per detail A.

3 

Turn the entire assembly 180° and attach two seat planks (PK2) to the main frames (PK1), by using hexagonal head bolts (PK3) and locknuts (PK4) as illustrated. Make sure the hexagonal head bolts are installed upwards as illustrated.

4 

Tighten the all fasteners with spanners and appropriate tools. Attach the whole unit to the ground, by using dyna-bolts on each frame lug.
